## Press Release

### **Solo Exhibition by Keisuke Koizumi**

*"A Bunch of Keisuke Koizumi"*

November 28 - December 27, 2015

Reception for the artist: 6-8 pm, November 28

Talion Gallery is delighted to announce the opening of the second solo exhibition by Keisuke Koizumi, which comprises his latest works on painting and sculpture. After the Instagram project, *Keisuke Koizumi Bunching 2015*, in which the artist produces and uploads one piece a day everyday from the beginning to the end of this year, Koizumi will demonstrate further development of his artistic practice.

In Koizumi's work, deformed body depiction on shaped canvas may superficially seem one of the over-reproduced symbols of conventional modern paintings. However, the materials, motifs and techniques he applies to his creation easily deny such casual association. Plaster and paper clay roughly is attached on canvas with medium, wooden sticks intricately construct frame under the cotton fabric, and motifs such as body, ship, bowl and bridge are highly used into various forms of art pieces. Those components of the works embody fundamental existence of real life as physical materiality beyond symbolical or metaphorical functions of image.
